SUMMARY

I am a self-motivated creative problem-solver with experience in full-stack development, leading and coordinating large team projects, and navigating complex situations requiring flexibility in an ever-changing environment. I place a high value on teamwork and collaboration, and I strive to bring the best out of my peers.

LANGUAGES | FRAMEWORKS | TOOLS

Java, JavaScript, HTML, CSS, SQL | React, Spring Boot | VSCode, IntelliJ, GitHub

PROJECTS

WistLish — LaunchCode Capstone Project

- An app for building wish lists of products found online, and sharing those lists with others, enabling collaboration on things like gift buying or supply donations.
- Designed in HTML and CSS with a clean, minimalistic interface.
- Built interactive UI with user login, abilities to create and delete multiple lists, import and delete items, calculate total cost in each list, and share lists via text or link.
- Front-end built with React, JavaScript, HTML, CSS. | Back-end built with [insert platform] and storage in JSON.

EXPERIENCE

Director, Worship & Arts — The Journey Fellowship

September 2014 - July 2024

- Directed and developed large teams of volunteers to organize and lead weekly gatherings and seasonal events, and trained volunteers on the use of production technology and audio engineering, breaking down complex processes into bitesized pieces for systematic teaching.
- Managed multiple facilities, coordinating with vendors and contractors for fixes and upkeep, as well as project managed multiple large installations.
- Oversaw the procurement and implementation of new technologies and equipment, such as network stacks, smart devices, VOIP cameras, computers, remote stage lighting, and cloud livestreaming services.

Web, Marketing, & Church Sales — Mozingo Music (*now a branch of Palen Music*)

August 2013 - September 2015

- Rebuilt the online storefront and incorporated WordPress as backend management.
- Managed a large client list of churches, with deliverables for each client.
- Coordinated deliveries and installations of new equipment
- Built engaging marketing emails and newsletters sent weekly
